

Basic Bucket Systems

These fully autoclavable polypropylene bucket, wringer and simple cart system are suitable for use with all Contec flat mops and the EasyCurve mop by the addition of different wringers. The systems are compact, lightweight and maneuverable with removable buckets and wringers.

It provides a cost effective "best practice" double bucket option for facilities which are short on space. The system is available with standard casters or heavy-duty casters which are able to be locked.

The compact double bucket system can be bought as a kit which includes the stainless steel caster base, two polypropylene buckets and a connecting kit. The system is available with either two 5 gallon (20L) buckets or two 6.5 gallon (25L) buckets.

Two different wringer options are available to fit the bucket system. The platform wringers are manufactured from electropolished stainless steel. Designed to clip straight onto a bucket, the flat and curved platform wringers mean the bucket system can be used with all Contec flat mops and the EasyCurve mop.

5 gallon with castor base		Packaging
2769-KIT	Double Polypropylene Bucket System Two 5 gallon (20L) buckets (blue, red) and standard casters	1/case
