Flat Mop Sieve, Stainless Steel

Rigid Mop Wringing Sieve for All Contec Flat Mops

Description

The Flat Mop Sieve is used to wring solutions from any flat style mop up to 18 inches (46cm) in length. The perforated plate and angled bottom allow quick and thorough drainage of solution from the mop head making it easy to clean and maintain. The Sieve is used with sieve frames 2765 and 2766 and fits Contec's autoclavable plastic buckets, which are offered in 20 liter and 25 liter capacities in three colors (red, blue, or gray). Made from 100% Type 304 stainless steel, the Flat Mop Sieve is fully autoclavable and resistant to most common chemicals and disinfectants. Lightweight, durable, and compact making it easy to store. Ideal for double bucket protocols.
